Experience

Cimpress Technology — **Bengaluru, Remote**
Software Engineer (PR1) — Jan 2025 – Present

- Developed a React and TypeScript viewer for item search and address updates, which cut daily escalations by about **90%**.
- Engineered ship and replan APIs in Node.js and Koa, moved TMSv2 labels to Planman v2, and stored plans in DynamoDB.
- Built the Packing Slip Service from scratch in Node.js and TypeScript, which placed a REST API on Humanitech IDP.
- Delivered iPack labels over TCP from a Lambda on SNS and SQS through VPC peering, with retries, barcode checks, invoices, return slips, and a tracking id.
- Published Comet Bridge events for create, cancel, and ship, which fixed a schema mismatch and shifted logs to New Relic.

Siemens Technology and Services — **Bengaluru, Remote**
Software Engineer Intern — Oct 2024 – Jan 2025

- Replaced Cookiecutter templates with Copier, which cut project regeneration time by about **50%**.
- Integrated Ruff into the code-quality pipeline, which made lint runs about **40%** faster.
- Implemented inpainting, outpainting, and video generation with Nova on AWS Bedrock, raising efficiency by about **30%**.

IASSathi | An AI Guide to UPSC — **Punjab, Remote**
Software Developer Intern — Apr 2024 – May 2024

- Improved iassathi.com using Next.js, which increased page-load speed by **40%**.
- Optimized MongoDB, which cut storage cost by **30%** and made data access more reliable.
- Added a 1:1 video API at **99%** uptime, and a news panel whose live-feed accuracy rose by **35%**.

Education

National Institute of Technology (NIT), Meghalaya — **Sep 2021 – May 2025**
B.Tech, Computer Science and Engineering — **CGPA: 9.76/10 | 2nd Institute Ranker**

Sri Ramakrishna Sarada Ashrama, Hazaribagh — **Jul 2019 – May 2021**
Intermediate of Science — **Percentage: 96% | 2nd District Ranker**

Projects

DevPilot AI | Go Live | GitHub | **Next.js, React, Gemini, PostgreSQL, Tailwind**

- Developed a hiring desk for draft, visible, and closed roles, matched at **55%** skills, **25%** experience, and **20%** title.
- Wrote a Gemini screen per candidate with **20** skill, **5** voice, and **5** written questions, then stored and scored each answer.
- Produced a scorecard: forward only above **80%** per section and overall; recruiter decides; assistant writes no answers.

FlowPilot AI | Go Live | GitHub | **TypeScript, Node.js, pnpm, Next.js, VS Code, Vitest, GitHub Actions**

- Built a CLI and VS Code extension that runs format, lint, typecheck, test, secret scan, and diff review before a pull request.
- Organized a **10**-package repo with **16** checks, a **3**-step check, and a **6**-step pre-PR run; a missing script is never passed.
- Shipped **28** commands, an activity-bar view, and a one-file install on the same CLI, which cut manual pre-PR review.

Technical Skills

Languages: TypeScript, JavaScript, Python, Java, C++
Backend: Node.js, Koa, Express, NestJS, REST APIs
Frontend: React, Next.js, Tailwind, Cimpress React
Cloud Services: AWS Lambda, SNS, SQS, VPC, VPC Peering, DynamoDB, Bedrock
Databases: PostgreSQL, MongoDB
Tools: Docker, Kubernetes, Helm, Git, CI/CD
AI: LLMs, LangChain, RAG, GitHub Copilot, Amazon Nova, Prompt Engineering, Machine Learning

Achievements

- Earned **CodeChef** 5-star (**2054**) and **LeetCode** Guardian (**2166**).
- Placed **1st** in NIT Meghalaya and **AIR 412** in EROH (Engineer's Ring of Honour), organized by InfoEdge.
- Finished **141st** globally in LeetCode Weekly Contest 418, and **862nd** globally in Biweekly Contest 140.
- Secured **29th** in CodeChef Starters 154, and **107th** of **36,000+** in Starters 156 (Div 2).
- Stood **92nd** of **38,000+** in GFG Weekly Contest 174, and **2nd** in AlgoUniversity CodeRush (DSA).
